

Audio Joy for a Girl or a Boy

Laura Parsons is the proud owner of a black Peugeot 206. To all intents and purposes it could be described as fairly ordinary. It does not have the highest spec engine or trim level, but never-the-less it is relied upon and loved by its owner who uses it on a daily basis to travel to and from work and clocks up a good few leisure time miles also.

Laura likes to drive to her favourite tunes and was disappointed with the reproduction of her factory fitted CD Tuner and speakers. Advised by her boyfriend, who had recently received the FOUR MASTER treatment and had also spied a special offer for an "Audio Joy" system in a lads motoring magazine, Laura took her prized possession to a FOUR MASTER, Source Sounds, in Sheffield with the same trepidation that a man may feel when visiting a ladies lingerie shop!

Laura picks up the story; "From the moment I walked through the door, I knew that all I had heard about FOUR MASTERS was true. I was greeted and made to feel completely welcome and within minutes I was perfectly happy to be lead by the specialist who approached me. I have no time or inclination to become an expert in car audio so, having access to such a knowledgeable sales man was just what

I needed. I took the magazine with the promotion in it, which had attracted me in the first place and the FOUR MASTER did the rest. This involved demonstrating differing levels of equipment and explaining what I would get for my money. I was pretty fixed budget-wise and the offer in the magazine looked like a great deal to me. The FOUR MASTER confirmed that it was and explained that the concept of buying "Audio Joy" meant that they could put together a system for me immediately and were certain that for my budget I could not do better!"

"Any remaining doubt or suspicion was put completely out of my mind when they lead me through to their workshop, which looked neat and tidy and, joy of joys, featured a fellow female, installing equipment. For the sake of solidarity I chatted with her and asked her opinion of the "Audio Joy" system I was interested in – her response matched perfectly, what I had already been told and I was sold there and then.

I booked my car in and eagerly awaited the big day. I was invited to watch the install taking place, but unfortunately, had to go to work instead. I had been told exactly what was going to happen anyway and felt completely comfortable that a good job would be done"

Laura returned at the end of the day to

find the system getting a couple of final sound tweaks. "I was really impressed with the clarity and power the system provided and the install looked really good also – Thank you FOUR MASTERS, you have changed my life! I don't think I have ever enjoyed a purchase so much before. Great experience, great service and great result!"

Main Picture: Laura was happy to have a sleek looking Hertz subwoofer box mounted in her luggage compartment next to a Hertz EP 4 Amplifier

Above: Laura was shown a FOUR MASTER promotion which appeared in a magazine she wouldn't normally read – Hopefully!

Left: A pair of Hertz Energy speakers are fitted to the factory fit positions, so not a lot on show – This can help with security - Smiley faces all round!
