TOP TUNES

In this much-loved feature we simply list out the Top Tunes as stated by some of those involved with this issue of the magazine. What's the point in that? It often helps to listen to tunes we have reviewed in your own car and see if you can hear the things we can. If not then it may be time to visit your own local FOUR MASTER. This is not the sole purpose however. We are all music lovers and sometimes it is nice to share musical experiences with like-minded people. I know that my musical horizons have developed as a result of others recommending music to me and hopefully others have too!
